Help reduce waste!

A significant amount of Ginan Town's budget is spent on rubbish disposal. Let's work together to reduce the amount of waste we produce, and strive to create a safe and secure living environment for everyone. Ginan Town subsidizes the purchase of composting equipment, disposal containers and electric disposers for food waste, as well as woodchippers and cardboard compost bins.

★For details, please contact the Economy and Environment Division.

Easy ways to reduce waste!

- Drain food waste!
- Separate your recyclables before disposing of them!

Sort your rubbish and your recyclables! ※For detailed information, please see the Household Rubbish Sorting Chart.
